Important Information

WATERMAN'S GYRO-SHEATH DESK SETS are built to meet the constantly increasing demand for beautiful and thoroughly practical desk sets for use in the office and in the home.

Bases are made of the very finest grades of imported onyx and marbles—shaped, finished and polished by experts.

The graceful gyro-sheath can be freely moved in any direction—straight up—inclined to right or left—or frontward—the bearings being just tight enough to hold the gyro wherever it is placed.

Gyro-sheaths are made in two capacities (identically the same in outward shape and size)—one to receive the No. 62½ size pen and the other to receive the No. 67 and No. 0365 pens, the two sizes of pen sheaths being interchangeable. The No. 67 size gyro-sheath can be had in either the regulation metal or finished in hard rubber to match the pen selected—the individual number of the desk set equipped with the hard rubber gyro being identified by the suffix "R," viz., "No. 6267-R."

Waterman's Desk Set pens possess all the built-in excellence that characterizes the regulation Waterman's pocket type of fountain pens. Some of these superior features are the extra large ink capacity—the simple and efficient filling device—the 14kt. gold, iridium-tipped nib in a wide choice of distinctive styles—the patented "spoon-feed" that assures a steady, controlled flow of ink to the point until the very last drop of ink is used up—and the light-weight, stain-proof and perfectly balanced holder.

Waterman's Desk Sets with ornaments (only a few of which are illustrated herein) are truly works of art. They are especially appropriate for trophies or prizes for golf clubs, bowling clubs, bridge clubs, etc., or for any sport or contest where a trophy that combines ornamental beauty and genuine usefulness is desired. We have on hand desk set designs for nearly every competitive sport and your inquiries for regular and special designs are invited.

WATERMAN'S DESK SETS fill a most important role in
 Offices and Homes in the promotion of efficient writing.
 • Desk Set Pens are Self-Starters—writing instantly upon
 touching the paper and may be had with a point to precisely
 suit each writer. Also, desk pens and their trim are designed
 to match or harmonize with bases. • Bases are made of very
 finest Onyx or Marble, selected especially as to their marking
 so as to harmonize with ornaments. • Waterman's Gyro-Sheath
 has just enough friction to stay where it is placed. Nib is sus-
 pended in an air chamber—where it is protected in a moist
 condition, ready for instant use.

We invite your inquiry for information on other regular styles
 or specially designed desk sets for use as trophies, prizes, etc.

The World's Finest Writing Inks in the Best Fountain Pen Bottles!

WATERMAN'S IDEAL INKS are absolutely the best for your fountain pen and for general use. They are skillfully made from the very finest of raw materials and are uniform in colors and consistency and free from clogging sediment.

Waterman's Blue Black and Waterman's Jet Black Inks are permanent, non-fading record inks. They have no equal for use on bank checks, office records or legal or other documents where it is essential that the writing be preserved in a permanently legible state.

Waterman's Blue Ink writes a bright blue. Because it is easily washed from hands or fabrics with ordinary soap and water, it is the ideal ink for school use. Waterman's Green, Violet and Red Inks are made in beautiful colors for many useful purposes.

Waterman's Inks can be secured in different sized containers which makes it possible for your customer to secure exactly the size and quantity of ink required for his particular use.

Well-Top Brings the Last Drop to the Top!

When you sell a Well-Top bottle of ink you are not only selling your customer a unique convenience in a container of excellent ink—but inasmuch as Well-Top allows him to use the very last drop of ink in the bottle, he also effects a marked economy by securing more “usable” ink.

Waterman's Well-Top Bottle—offering a brand new idea in ink containers—is the most practical bottle for fountain pen filling on the market. No matter how little ink remains in the bottle, it can instantly be transferred to the “well” at the top where it is easy to get at.

Unlike other containers of this character, the “well” occupies the entire inside of the bottle's extra wide and extra deep neck.

It's as simple as ABC. You just turn the bottle upside down as shown below. Ink completely fills the neck. Now flip the bottle back to its regular base. The ink has remained in the well inside neck—within plain sight and easy reach of a fountain pen.

A convenient screw cap seals the bottle. Packed in a square, protective carton.

Slowly turn the bottle upside down. Ink completely fills the extra-large neck.

When bottle is quickly returned to its regular base, well retains generous supply of ink.

Well-Top is packed 3 dozen bottles to a carton in the following 6 assortments:

- 1—3 doz. No. 182 Blue Black—Permanent Record Ink.
- 2—3 doz. No. 682 Blue—Washable Ink.
- 3—3 doz. No. 782 Jet Black—Permanent Record Ink.
- 4—3 doz.—1 doz. each No. 182 Blue Black; No. 682 Blue; No. 782 Jet Black.
- 5—3 doz.—1 doz. each No. 582 Red; No. 382 Violet; No. 282 Green.
- 6—3 doz.—Each dozen containing two bottles of each of the above six colors.

(Every dozen bottles packed in an attractive display container for quick sale from your counter)

The Popular Tip-Fill Ink Container for Individual Desk Use

This Waterman's 2-ounce container with the Tip-Fill feature is proving extremely popular wherever it is shown. Not only is it a very good looking bottle but its Tip-Fill feature is especially appreciated by writers.

When ink gets low, bottle may be tipped to a new base so as to deepen the ink at that point and thus allow a fountain pen or a dip pen to get the last drop.

An extra wide neck opening provides easy access to the ink by a fountain pen or dip pen—no matter at what angle bottle is placed. A convenient, easy-to-open screw cap seals the container.

This container may be had with any of the six colors of Waterman's ink listed below by their respective numbers.

2 ounce bottles, 10 cents each list, in all colors. Each bottle packed in a square, protective carton.

DeLuxe Tip-Fill for High Grade Trade

Waterman's DeLuxe Tip-Fill is a very popular seller with gift shops, stores catering to the college trade and other high grade stores.

The many sharp "facets" of this hexagon shaped container reflect the iridescence of the glass and make it attractive enough to grace the finest office or home desk! The only labelling is on top of the secure, but easy-to-remove screw cap.

Bottle may be tipped on its side for pen to get the very last drop of ink. The extra wide neck provides easy access to the ink by a fountain pen or dip pen.

The No. 174 Tip-Fill Bottle illustrated contains a liberal $\frac{1}{4}$ pint of Waterman's Blue Black Permanent ink to be sold for 25 cents. Bottle is packed in a handsome gold, red and blue square carton which, in itself, provides an attractive display.

25c EACH—PACKED 1 DOZEN TO A CARTON—SHIPPING WEIGHT 10 LBS.

Correspondence Inks in Six Beautiful Colors

Waterman's Correspondence Inks are offered in a wide range of colors to meet the feminine vogue for personal correspondence ink in unusual colors to match or harmonize with tinted writing papers. Correspondence Inks are also widely used in business offices for special charts, graphs, etc.

Quality of this ink is on a par with our well known commercial writing inks—bright in colors and absolutely free from sediment which might clog a fountain pen.

Correspondence Ink is offered in these six unusual colors—Aztec Brown, Tropic Green, South Sea Blue, Patrician Purple, Spanish Tile and Jet Black—15 cents a bottle.

Wide neck. Overhanging cap protects fingers from contact with ink on neck of bottle when it is opened.

15c EACH—PACKED 1 DOZEN TO A CARTON (EITHER ALL OF 1 COLOR OR 2 BOTTLES OF EACH OF THE 6 COLORS)—SHIPPING WEIGHT 6 lbs.
